KIT AERO

P/N IV9420GL

ENDOSCOPE KIT

Catégories : Testing, measurement and maintenance tools, benches, Endoscope

PRODUCT DESCRIPTION

This GSE is used to perform internal inspection of main gear box (MGB), tail gear box (TGB) and engines.

The hard-walked carry case is lightweight and small enough to fit under an airplane seat while protecting the videoscope againtst the rigors of travel. The AC power adaptor can be powered either by the battery or with the AC power adaptor. The battery powers the videoscope for up to 90 minutes of continuous use.
The rigid sleeves sets are available for 6 mm and 4 mm scopes. Each set comes three rigid sleeves measuring 250 mm, 340 mm and 450 mm in lenght. The carry case can only accomodate the 250 mm and 340 mm sleeves.
Ultraviolet (UV) and infrared (IR) lighting options are available to expand the videoscope's capabilities.
A variety of optical adaptors for the scope enable you to change the angle, direction, and depth of view.
